KOOTEK CONSULTING AND BOB'S BUSINESS JOIN FORCES TO STRENGTHEN UK CYBER RESILIENCE.

As two recognised leaders in the market, Kootek and Bob's Business; a leader in Cybersecurity eLearning solutions, and Cybersecurity awareness training, share a common goal which is to help organisations strengthen their cyber defences. Kootek has long been aware of Bob's Business strong presence in the industry; and its history of training and helping businesses defend themselves from cybercrime. Kootek Consulting, a trusted partner for managed security, compliance, and expert advisory services, today announced that it has added Bob's Business eLearning solution to her platform as a new offering.

"Kootek is proud to partner with Bob's Business, and we believe Bob's Business is a top-flight organisation with the capability to deliver and support their products in a reliable and professional manner" said **Kevin (InfoSec & Compliance lead at Kootek)**

"We're delighted to partner with Kootek Consulting to bring Bob's Business' human-centric cybersecurity solutions to a wider audience across the EMEA region. At Bob's Business, we've always believed that technology is only part of the security puzzle. Real resilience comes from building a culture where employees understand their role in protecting the organisation. By integrating our engaging eLearning and phishing simulations into Kootek's expert managed services, we can help SMBs strengthen their security posture with a practical, people-first approach that is both effective and accessible." **Neil (CEO at Bob's Business)**

Kootek is a research and information security service provider. We take security seriously and are passionate about the managed security services we deliver to our clients which keep their systems, Technology infrastructure, Data and People, resilient and compliant. Our extensive experience helps us protect and provide our clients with the right solutions to meet their business security and compliance needs. **To learn more about Kootek Consulting, visit <https://www.kootek.co.uk>**

Bob's Business is an award-winning cybersecurity awareness training provider dedicated to reducing organisational risk by addressing the human element of security. Founded in 2007, the company pioneered a story-driven approach to eLearning that uses relatable narratives and animated characters to transform complex security and compliance topics into engaging, memorable learning experiences. Specialising in cybersecurity awareness, culture change, phishing and compliance training, including GDPR and ISO 27001. Bob's Business helps organisations of all sizes build stronger, more proactive security cultures. By bridging the gap between technical security controls and human behaviour, Bob's Business empowers employees to move beyond simple compliance and become active participants in protecting their organisation.
